

San Bernardino LAFCO Fiscal Indicators

1

City of Twentynine Palms

Report Created:11/3/2016

The City of Twentynine Palms directly provides the full range of municipal services except for law enforcement, retail water and fire protection. The City has chosen to contract with the County for law enforcement services. Retail water is provided by the independent Twentynine Palms Water District. Effective July 1, 2016 fire protection and emergency response services are provided by the San Bernardino Fire Protection District and its South Desert Service Zone. Property Tax as identified in the audit includes utility unitary tax. Redevelopment activities have been removed for all years to normalize for the dissolution of redevelopment agencies effective February 1, 2012.

Property Tax Revenue

Description

This indicator will have more importance for those agencies heavily reliant upon property tax revenues. As this revenue source is relatively stable and lags about two years behind changes in market conditions, this indicator can potentially depict the level of stability of an agency's revenue base.

Sales Tax Revenue (cities)

Description

This indicator can help agencies determine the levels of sales tax revenue that are more sensitive to changes in the economic conditions, possibly impacting their abilities to fund and provide services.

General Fund Revenue (cities)

Description

In most cases, as the percentage of general revenues decreases, a local government loses its ability to respond to changing conditions and to citizens' needs and demands. Decreases in general revenue may also indicate over-dependence on external revenues which are often restricted in nature and could signal future difficulty in maintaining service levels. A ratio of one or higher indicates that the service is self-supporting.

Service Obligation (governmental)

Description

Measures whether or not a government's annual revenues were sufficient to pay for annual operations. A ratio of one or higher indicates that a government lived within its annual revenues.

Formula:
$$\frac{\text{operating revenue}}{\text{operating expenditures}}$$

Pension Payments

Description

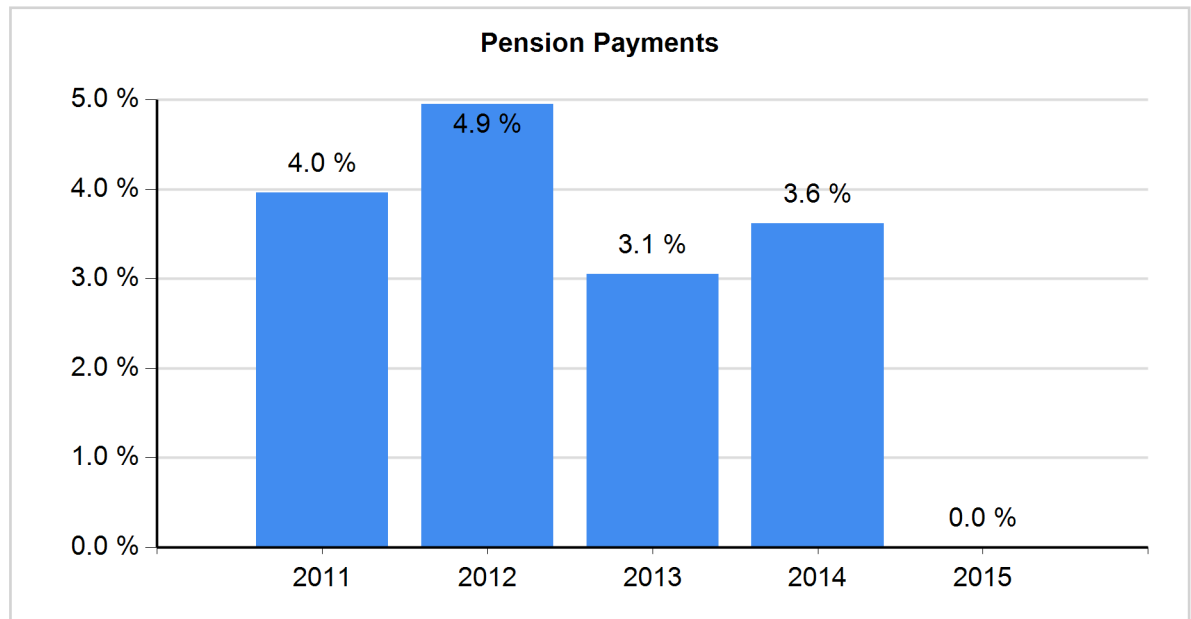

This indicator depicts the relationship between the pension payments as a percentage of an agency's total revenues. Due to pending updates to pension reporting requirements, the Pension Payments indicator does not show data for 2015. GASB 68 revised and established new financial reporting for pensions effective for 2015. Effective beginning 2017, GASB 73 and GASB 82 amend GASB 68, although implementation may occur earlier. Therefore, updates to the Pension Payments indicator will not occur until full implementation of GASB 73 and GASB 82.

Formula:

annual pension
cost/total revenue
